DYNAMO® STRINGS FOR VIOLIN: PERFORM LIKE YOU NEVER HAVE BEFORE

We have developed this set of DYNAMO® violin strings with lots of passion and patience. And the outcome is something that is even better than we dreamed of.

Why? Because our DYNAMO® strings for violin are strings that combine qualities you usually can't find in one set.

- ✓ They offer a broad sound **AND** an excellent response.
- ✓ They have a wide dynamic range **AND** you can modulate sound colors all along to their full extent.
- ✓ They sound great on most old **AND** most new instruments.
- ✓ Their sound will blow away the musician **AND** the audience.

But before we go on telling you about how great we think they are, you should probably have a go yourself. You'll be pleasantly surprised from the moment you start playing – and after one or two days of getting used to their style, they'll blow you away.

COMPARE THE SOUND OF DYNAMO® STRINGS TO OTHER THOMASTIK-INFELD VIOLIN STRINGS

We created this sound chart to make it easier for you to get an idea which of our strings are the right ones for your needs. But of course their sound can differ a bit depending on your instrument.

5 ASPECTS ABOUT OUR DYNAMO® VIOLIN STRINGS YOU SHOULD KNOW

We know it can be a tough decision for violinists to decide whether to switch to new strings or not. To help you decide, we've made this scale. It shows where our DYNAMO® strings classify in terms of the following 5 aspects.

WHAT OTHERS SAY ABOUT OUR DYNAMO® STRINGS FOR VIOLIN

“The new Thomastik-Infeld DYNAMO® strings are, in my eyes, revolutionary.”
Fedor Rudin, international award-winning violinist

“The DYNAMO® strings allow my violin to develop a new depth of sound. The spectrum of tone colors becomes considerably more complex while the sound remains constant.”
Daniel Stoll, Violinist of the Vision String Quartet

“The sound quality of the DYNAMO® set remains at the level of a new set until the end of their lifetime.”
Sergei Dogadin, international prize-winning violinist
