

WARNING

THIS PRODUCT CONTAINS A COIN / BUTTON BATTERY

Keep out of reach of children.

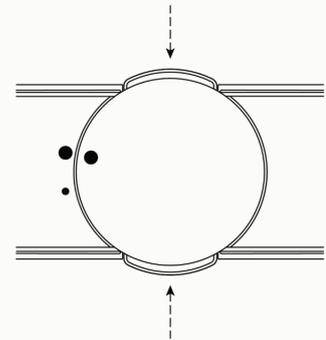

The battery is hazardous! If swallowed, a lithium battery can cause severe or fatal injuries within 2 hours. If you think a button/coin battery has been swallowed or placed inside any part of the body, seek immediate medical attention. Contact the Australian Poison Information Hotline on **13 11 26** immediately for 24/7 fast, expert advice. **Dispose of used batteries immediately.**

Changing the 3V Coin Cell Battery

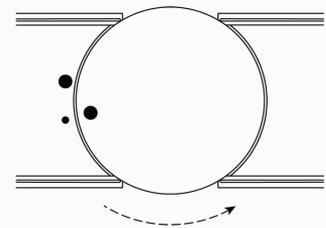

1. Remove the Battery Cover

- Pinch the two spring-loaded tabs on each side of the cover.
- Twist the cover counterclockwise until the large dot lines up with the small dot.
- Pull up to remove the cover.

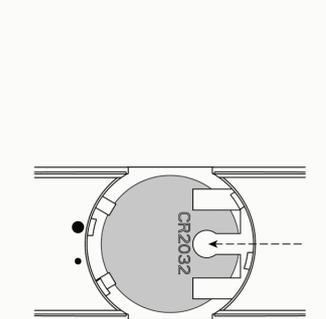

2. Remove the Battery

- Press down on the rounded end of the middle tab to release the battery.
- If needed, use the eraser end of a pencil for extra leverage.

3. Insert a New Battery

- Slide the new battery into the holder.
- Press it down flat to lock it in place.

4. Reinstall the Battery Cover

- Squeeze the tabs on the cover.
- Insert it with the small dot aligned, then twist clockwise and align with the large dot to secure.
